### Dinara raid (Epic Ride)

If someone close your eyes and brings you here, you will hardly believe that you are still in Dalmatia. Away from the sea, only some old abandoned shepherd's houses gives you a hint of proximity of civilization – all else is untouched nature, hundreds of peaks and neverending landscapes. It is a place of a great history and fallen warriors. Endless stories about battles from the end of a previous century keeps this mountain in the veil of misteries, and you will be guided through nature and history using old carriage roads and roads made specially for panzer battalions in recent homeland war. It is something to see, and there is no short journey that can make you satisfied as the long one, so this area is covered in few longer tours, even a two day expedition.

-  Price: From 300 € for one day, for more than one day - price per inquiry
-  Duration: ~ 8-12 hours (one day ride), more than 36 hours for longer tours

\*Protection helmet, gasoline, licensed guide, ood, beverages and tents included

# WOLF & VIPER'S

## ATV

## ADVENTURE

2019.

**Viper's Mountain Tour**

Like every other, this tour starts in town Sinj, then it is guided through the fields to the end of the Cetina river valley, where we start ascending Kamešnica mountain. After a while, we come to Korita village from where we continue to ascent further to Blace plateau, then to the picturesque Mala Korita village with all-season water spring and view of the highest peaks of Kamešnica. The journey is continued with not even one meter of road from where the view is not stunning! On the way, we will make a stop to climb the peak Glavaš (1308 m). Considering the fact that our starting point is at 300 meters above the sea level, that makes our tour one kilometer high! :). The end of descend is in village Gljeve, then we continue riding to old village Han, crossing the bridge then going back to our base following the flow of Cetina river and many channels in fields of Sinj.

€ Price: 100€ for one person per ATV  
160€ for two persons per ATV

🕒 Duration: 4h

\*Protection helmet, gasoline and licensed guide included.

**Wolf's River Tour**

Along Viper's tour, river tour is most popular among our guests for the relaxing views and refreshing breeze of the crystal clean Cetina river. For people of Sinj and the locals, Cetina represents some kind of magic heritage, especially in summer when the heat of field roads in the contrast with blue-green cold waters creates unforgettable sensations. Our tour will follow Cetina flow, upstream and downstream, and visiting Rumin, Kosinac and Malin springs, and in summertime even some swimming if you are into that. Depending on seasons, there are some water crossings, so it is wise to bring some spare sneakers and socks :)

€ Price: 90€ for one person per ATV  
150€ for two persons per ATV

🕒 Duration: 3-3,5 h

\*Protection helmet, gasoline and licensed guide included.

**Terrain Technical Ride (TTR)**

Let us introduce you to the very essence of Wolf & Viper's history, a director's cut. If you want to know what are these vehicles actually made for, then book this one. Let's get one thing straight - yes you will dwell in the nature, with birds singing and scent of pine trees arousing. Only the scapegoats will maybe thrash bEEEEing you for going some up-hills even they cannot climb. You will encounter challenging terrain, steep uphill ride, downhill technical descents and other interesting situations that will keep you stay in 4 wheel drive, low-gear most of the time :)

€ Price: 160€ per ATV (only one person per vehicle)

🕒 Duration: 2,5-3 h

\*Protection helmet, gasoline and licensed guide included.
